Dear Amy,

Enclosed are Letters of Guardianship of the Estate and the Court Order appointing me as Guardian of the Estate for my mother, Emma Bowie as we have discussed.

As soon as possible, please give me a full report detailing the holdings in Mom's account. I would also appreciate an estimate of annual income for each security held in Mom's account.

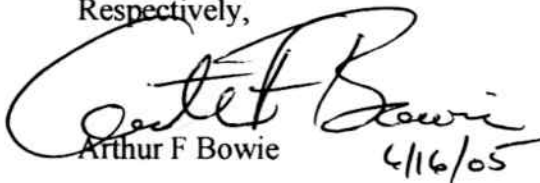

Something similar to the normal monthly statement would be fine, I just need to have a complete inventory and income estimates at the time control of the account returns to me.

**In addition, information of and access to Mom's account is to be strictly limited to me alone. Correspondence and monthly statements are to be sent only to my Bentonville address. There are to be no copies of statements, reports or other information given to Connie Limbird or any other person.**

Nearly everyone involved believes that this court action was unnecessary and that it was solely for Ms Limbird's personal benefit. Last December, I realized that Ms Limbird was stealing from our mother and took steps to protect Mom. While I don't understand all of what is happening, it is clear that the lawsuit was about Ms Limbird's anger with me and not about helping Mom. Through out the court action, Ms Limbird never denied her thief but instead tried to minimize the effects. On two separate occasions, she perjured herself with the Franklin County Circuit Court.

Such behavior has shown that Ms Limbird is deceitful and not trustworthy, my management of Mom's business must adjust accordingly to protect both Mom and myself.

Respectively,
